

## Education Leadership Series

# Re-thinking Teaching and Learning: A Challenge to Innovative Educators

Presented by Dr. Kyle Peck

With great excitement we invite you to an Education Leadership Series event not to be missed! As a service to the Long Island education community, we proudly present Dr. Kyle Peck as our speaker.

**KYLE PECK, Ph.D.** *Associate Dean for Outreach, Technology, and International Programs, Professor of Education, and Director of the Educational System Design Project at Penn State University.*

**October 17, 2005, 9:00 a.m. to noon.**

**Long Island University — C.W. Post Campus**

**720 Northern Blvd. – Brookville, NY**

**Hillwood Commons Lecture Hall**

**PLEASE REGISTER ONLINE at [www.schoolnews.org](http://www.schoolnews.org)**

**Re-thinking Teaching and Learning: A Challenge to Innovative Educators:** Today's system of education was created long ago by people who are not here to change it. It was created when we knew relatively little about the way people learn, had few options in delivering instruction, and faced a much more predictable future. We can now do much better!!!

In this interactive, multimedia session we will face the future that is rapidly approaching, consider how today's students are different than those of previous generations and why, and will think about the potential of today's tools to help smart, caring people transform what we do in the name of education.

This session will establish the need to change in important ways, will reveal my "best guess" at the educational system I believe we will create in the next decade or two, and will energize you to make important progress in your own schools and classrooms as the new system emerges.
