

EEV on September 14, 2005

BES: Summer 2005

Part I: EEV in Class

Join your group. Tonight is brainstorming. Engage in creating a shared vision, team learning, and examining mental models. Have one of you take brainstorming notes and send them electronically to Dr. Schneiderman at the end of the session or within the next 24 hours.

Part II: EEV Conversation over two weeks (9/14-9/28)

Be prepared to answer initial question about who, what, when, where, why, and how in class on September 28. This is not a formal step. Rather it is an organizational step, helping you focus on what you will create. Most importantly, continue your creating a shared vision, team learning, and examining mental models. Be active in an online conversation.

Please create a QuickTopic and send the URL to Dr. Schneiderman to post. If you have difficulty creating this, just let us know and we'll help.
