

ASSET is seeking workshop proposals and, again this year, poster sessions, for inclusion in the program of its 8th annual Educational Technology Conference. Consideration will be given to workshop proposals that are interactive in nature and deal with current trends and issues in the field of educational technology.

Workshop session formats:

-45 minute workshops

-90 minute hands-on labs

Poster Sessions again this year!!

Poster sessions will consist of 45 minute informal “share-fair” style project displays and discussions by teachers illustrating “best practices” in technology integration and productivity.

Topic Ideas

- One-to-One Computing
- Core subjects and the Internet
- Technology and Assessment
- Student as Teacher
- Web Design tools for Teachers and Students
- Harnessing the Power of Treaded Discussions
- Adaptive Technologies

Don't miss the premier
Educational Technology
Conference on Long Island.

The Association of Suffolk County Supervisors for Educational Technologies, ASSET, was formed in 1996 as an organization to represent administrators and supervisors responsible for computer service and other educational technologies in the public school districts within Suffolk County, NY. The Association holds monthly meetings during the school year to discuss issues regarding the use of technology in the classroom, curriculum integration, staff training, hardware and software issues and other issues relating to members needs.

The association's purpose as stated in our by-laws are:

- To enhance teaching and learning in Suffolk County School Districts through the use of computers and other educational technologies by encouraging the integration of technology into the k-12 curriculum and ensuring that our students are provided with the educational opportunities necessary to prepare them for the 21st century.
- To provide members with opportunities to share ideas and information relating to instructional, administrative, management technologies in education.
- To provide high standards of supervision and leadership in the area of educational technologies.
